- **Qualification -** B.E. in information Technology

Employment History

- Working as a Associate Consultant with Capgemini Technology Services India Ltd, Pune from Jan 2017.

Technical Skills

Operating Systems: Windows 7

Languages: Java 1.6

Web Technologies: HTML, CSS, JavaScript, Angular JS.

Tools: Spring Tool Suite (STS), Apache Maven, SVN, Jenkins, SonarQube, and GIT.

Database: Data Studio, MYSQL

Application Server: WAS8.5

Project Profile

Project Name	Enterprise Claim Systems (ECS)
Client	LAIC (Large American Insurance Company), USA
Role	Developer (Designing, Developing, Reviewing, Testing and Implementing)
Team size	4
Environments	Java, J2EE, COBRA Frame Work, Spring, XML.
Tools& Utilities	RSA 8.5, SVN, Jenkins, CodePro and JUnit.
Server	WebSphere 8.5

Project Description:

ECS application is made for insurance company to be used by claim handler to handle claims in
Less time and with convenience. The application takes care of entire functionality of handling claim,
reporting of claim up to final payment to vendor/claimant. Automatic Assignment is part of ECS and it
allows for assignment to appropriate performer based on criteria established on the Assignment Profiles
UI's. Automatic Assignment reduces the Number of claims needing to be manually assigned. Thus
reducing the time and effort in getting the claim to the appropriate claim handler.

Responsibilities:

As a Software Developer, I am responsible for

➢ Involving development for Presentation layer using XSL with Dialog Process, Service layer using
   Business Process with Business Objects and Integration layer using Query Mapper or DAO.
➢ Continuous communicate with the Business Partners and Onsite Coordinator for requirement
   Clarifications and status update.
➢ Actively coordinated with onsite project team in analysis, providing defect resolution and
   Suggesting code fixes.
➢ Unit testing of enhancements and changes.
➢ Documenting of the communication with onsite and work done in offshore.
➢ Involving in handling the incidents for Service tickets using HPSM Tool.
➢ Training and mentoring for new members on AICS and Functional requirement in the account level.

Professional Skills

➢ Team work
➢ Time management
➢ Pressure handling.
